PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 4.5+ years of experience in designing, developing, and maintaining responsive, scalable, and high-performance web applications. Strong expertise in React.js, JavaScript, Redux Toolkit, HTML, CSS, SCSS, Bootstrap, and Tailwind CSS, along with hands-on experience in Next.js, TypeScript, Node.js, Express.js, MongoDB, and Zustand. Proven ability to build modern UI architectures, optimize performance, improve SEO, and deliver business-focused solutions in agile environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS

State Management: Redux Toolkit, Redux, Zustand, Context API

Backend: Node.js, Express.js, REST APIs, MongoDB

Tools: Git, GitHub, Postman, VS Code, npm

Performance & Security: SSR, SEO Optimization, Code Splitting, Lazy Loading, CORS, XSS Prevention, Secure Storage

Methodologies: Agile, Scrum, Responsive Design, Component-Based Architecture

Frontend React Engineer | The Latest Buzz, Gurgaon

June 2024 – Present

- Developed and maintained scalable, responsive web applications using React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, HTML5, and CSS3.
- Built reusable UI components and modular frontend architecture to improve code maintainability and accelerate feature development.
- Developed secure authentication flows, including login, registration, email verification, protected routes, role-based access control (RBAC), and conditional user redirection.
- Designed and implemented dashboard modules, appointment scheduling interfaces, document verification workflows, support management systems, rating and review features, and dynamic form-based user interactions.
- Integrated RESTful APIs and collaborated closely with backend teams to deliver seamless data communication across multiple application modules.
- Improved application performance using lazy loading, memoization, efficient component rendering, and code splitting while ensuring cross-browser compatibility and responsive design.
- Managed complex application state using Redux Toolkit, implemented form validation using Yup, and followed Agile development practices with Git-based version control.

Web Developer | Airansoft Pvt. Ltd.

Feb 2023 – May 2024

- Developed and maintained backend services using Node.js, Express.js, MongoDB, and JavaScript for scalable web applications.
- Designed and implemented secure RESTful APIs, controller logic, middleware, and route handlers to support business workflows and frontend integration.
- Configured and managed Nodemailer for transactional email services, including user notifications, confirmations, and automated email workflows.
- Implemented input validation, centralized error handling, API optimization, and secure request handling to improve reliability and maintainability.
- Collaborated with frontend developers to ensure efficient API integration and smooth communication between client and server applications. Participated in debugging, testing, feature enhancements, and deployment while following clean coding standards and Agile development methodologies.

Junior Web Developer | Amity DigiTech, Mathura

Feb 2022 – Jan 2023

- Developed and maintained responsive business websites using HTML5, CSS3, JavaScript, Bootstrap, jQuery, and PHP.
- Customized website layouts, landing pages, reusable UI sections, and client-specific functionality according to business requirements.
- Improved website responsiveness, browser compatibility, page performance, and overall user experience across multiple devices.
- Worked closely with designers and senior developers to implement new features, resolve production issues, and maintain existing web applications.
- Participated in website deployment, bug fixing, content updates, and ongoing maintenance activities.

EDUCATION

Master of Computer Applications (M.C.A.)

Chandigarh University

CGPA: 8.0
