PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 4.5+ years of experience designing, developing, and maintaining responsive, scalable, and high-performance web applications. Strong expertise in React.js, Next.js, TypeScript, Node.js, and Express.js, with hands-on experience integrating real-time features, secure authentication, bot/fraud prevention, and AI-powered tooling (Gemini API). Proven ability to build modern UI architectures, optimize performance and SEO, and deliver business-focused solutions in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, DaisyUI

State Management: Redux Toolkit, Redux, Zustand, Context API

Backend: Node.js, Express.js, REST APIs, MongoDB, Mongoose, Socket.io (real-time features)

Security & Validation: Arcjet (bot detection & rate limiting), JWT, RBAC, Yup, CORS, XSS Prevention, Secure Storage, Email Verification

Email Services: Nodemailer, Resend, Amazon SES

AI Integration: Google Gemini API (AI Resume Analyzer, AI Code Reviewer)

Tools & Practices: Git, GitHub, Postman, VS Code, npm, Agile/Scrum, SSR, SEO, Code Splitting, Lazy Loading

PROFESSIONAL EXPERIENCE

Frontend React Engineer — *The Latest Buzz, Gurgaon*

Jun 2024 – Present

- Developed and maintained scalable, responsive web applications using React.js, Next.js, TypeScript, Redux Toolkit, and Tailwind CSS, building reusable UI components to speed up feature delivery.
- Implemented secure authentication flows including login, registration, email verification, RBAC, and protected/conditional routing, using Arcjet to block bots and enforce rate limiting on sensitive endpoints.
- Added real-time functionality with Socket.io to power live status updates and notifications across dashboard and support modules.
- Designed dashboard modules, appointment scheduling, document verification workflows, support management, and rating/review features, backed by REST API integration with the backend team.
- Built an AI-powered Resume Analyzer and Code Reviewer using the Gemini API, giving users instant, structured feedback on resumes and code quality.
- Improved performance via lazy loading, memoization, and code splitting; ensured cross-browser compatibility and responsive design; validated forms with Yup and followed Git-based Agile workflows.

Web Developer — *Amity DigiTech, Mathura*

Feb 2022 – May 2024

- Built secure RESTful APIs, controllers, middleware, and route handlers using Node.js, Express.js, and MongoDB to support business workflows and frontend integration.
- Configured transactional email workflows (notifications, confirmations, verification) using Nodemailer, Resend, and Amazon SES.
- Implemented input validation, centralized error handling, and secure request handling to improve reliability and maintainability.
- Developed and maintained responsive business websites using HTML5, CSS3, JavaScript, Bootstrap, jQuery, and PHP, collaborating with designers on features, debugging, and deployment.

PROJECTS

AI Resume Analyzer — React, Node.js, Gemini API — parses resumes and generates ATS-focused feedback and improvement suggestions.

AI Code Reviewer — Next.js, Gemini API — reviews submitted code and returns quality, bug, and improvement suggestions.

EDUCATION

Master of Computer Applications (MCA) — Chandigarh University | CGPA: 8.0
